

# TMOB™

## TACTICAL MOBILITY BAG

Product No: TMOB - Tactical Mobility Bag  
Dimensions: 16" x 9" x 9"

The customized medical mobility bags are designed with a compact, component system to allow for multi-vehicle mobility. The revolutionary 4 included Versa-Straps™ (Velcro system) allows the operator to attach the TMOB to virtually any fixed structure within a vessel or vehicle, in any direction securely while providing unobstructed easy access to critical medical supplies. The scaleable interior is fashioned with 3 movable separators to organize and accommodate a wide range of trauma supplies. The highly durable Cordura® Nylon exterior has strategically placed zippered pockets with a quick-release double-zipper access panel to expose the interior of the bag. The Velcro exterior panels allow for multiple TMOB bags to be combined and attached, creating kick-out bundles for easy delivery of medical re-supply. **Custom configurations available.**

## UNOBSTRUCTED EASY ACCESS TO MEDICAL SUPPLIES
